DETAILED ACTION

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 4, 7, 15, 16, 20, 26, 27, 31, 32, 36, 39 and 43, drawn to methods of *in vivo* transduction of liver with AAV, classified in class 424, subclass 93.2.
- II. Claims 48 and 54, drawn to method and kit for determining presence of infectious AAV DNA in a sample, classified in class 435, subclass 6.

The inventions are distinct, each from the other because of the following reasons:

Although there are no provisions under the section for "Relationship of Inventions" in MPEP 806.05 for inventive groups that are directed to different methods, restriction is deemed to be proper because these methods appear to constitute patentably distinct inventions for the following reasons: The two methods are related only to the extent that they involve AAV. The methods have different goals, use different reagents, and comprise very different method steps.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification; the search required for Group I is not required for Group II, and *vice versa*; and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1632

A telephone call was made to Dean Nakamura on July 23, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Certain papers related to this application may be submitted to Art Unit 1632 by facsimile transmission. The FAX number is (703) 308-4242 or 305-3014. The faxing of such papers must conform with the notices published in the Official Gazette, 1156 OG 61 (November 16, 1993) and 1157 OG 94 (December 28, 1993) (see 37 CFR 1.6(d)).
